"Here and Now"

When I first splashed out the water, it was all wet
Covered in blood, mama covered with sweat
The umbilical cord wrapped around my neck
Chokin' me, doctor pushin' me and pokin' me
I said to the motherfuckin' nurse "You must be jokin'
me"
Ten fingers, ten toes like it's supposed to be
Thank god it ain't no coke in me
That's what my momma spoke to me
She said, "Son, your uzi weighs a ton"
The world for you has just begun, now go Darien have
some fun
But don't abuse time on earth 'cause time's worth more
than gold
The here is here and the now is now and the world is
hell and cold
So off into the street I strode
I think I'm supposed to take your head as far as I was
told
It's a shake-shake of the dice, you should take-take my
advice
You dealin' with snakes and mice, that means you can't
win
But losin' I'd never have trouble choosin', 'cause what
I'm gon' use 'em
If it ain't worth doin' now, it ain't worth doin' at all
I ain't bullshittin' wit y'all

Your life is here and now
No need to beat your brow
These moments won't belong to you, tomorrow

Well here I am, here I stand, here I be
Behind this mic tryin'a set my life free
Let my shit be testimony of a G
Who seen sights that other people just couldn't see
They say "Where you wanna do it?" I say "Here"
They say "When you wanna do it?" I say "Now"
They say "How?" I say "With my style, one of the few
things I got in this world
My family, a couple friends, my beautiful baby girl"
And procrastination, lack of motivation in your

operation
I'm sorry but I just don't have the patience
You'll never get a second chance to dance
While you sit on your hands, we spit out the jams for
the fans
And I'm so far advanced, I had to bring it back some
And I said fuck it, let's take it to the maximum
Like walking with your legs broken, mic spoken
Arms draggin, staggerin' and laughin', here and now
I don't cry later, I put it down now, I don't wanna try
later
I seize the time, the eves from behind
I freeze-frame the game for the grind, I came for your
mind
Not for the fame, but the deaf, dumb, and blind
'cause everybody's gonna get just what come to 'em
Find your God, and run to 'em

I wanna talk now, no you can't call me back
You're too anxious, yeah, you could call me that
I wanna eat now 'cause there the food right there
No I can't wait, I just want my fair share
So where the food at? Call all the shots at
"Patience is a virtue," Yeah man, I got that
But my clock reads half past a monkey's ass
And a quarter to his balls, and it's moving fast
I just wish some people wouldn't dick around
'cause I want it here and now, I can't stick around
Yeah, so I probably won't be in the lobby
Waitin' for Bobby to give me a jobby-jobby
Hey Simo, primo, Kemo-sabe
Knees knobby, but stand firm, not wobbly
So where we at? ight here, when time is a now
Motherfuck the day, motherfuck the trial
