[uncredited spoken word poets form the song's intro]

"After a week of smoky nothingness.."

{*voice SLOWED down* ".. the stars had returned"

"The mountains were blue now, and purple along the upper reaches"

{*SLOWED again* "And as the sun left off,

the moon took up her reign over the true blue spaces."

"It was very solemn."

[Aceyalone]

As I stand in place, as the center of my galaxy

I AM, ORGANIC ELECTRICITY

My eyelids expose - the circumference

My mind tends to bend - irreverant!

Unparalleled - chaotic!

My fairy tale - psychotic

Lifespan - infinity

I am, ORGANIC ELECTRICITY

Equality and harmony - transmit

Contact shockwave - I'M HIT!

Program exchange - compute

Reformat hard drive - comply

Quantum leap time travel - exist

Exiting the exodus - connect

Brainchild nucleus - reality

I am, ORGANIC ELECTRICITY

All that has ever been - I shall be

And all that will come to be - I will become

God word radiate - authenticity

I am, ORGANIC ELECTRICITY

Cocooned in ignorance, silence and darkness

Blessed with intelligence, keenness and sharpness

to explore the seamless dreamless nightmarish illusion

Enhanced by your perception but, no conclusion

Mainframe access - DENIED

Password G.O.D. - supplied

Universal guidance - odyssey

I am, ORGANIC ELECTRICITY

Divining at the power source - intensity

I am, ORGANIC ELECTRICITY

Beauty of the inner pain - experience

Struggle of the forces - serious

Stargate pathway - enlightened

Thought process - engaged

Completing composition but imperfect intuition

I orbit in position, gravitational suspension

Past the 3rd and 4th and 5th dimensions

The extensions of, the pieces of, the essence of this
power

And carve the earth, mountains, land and seas

Rivers, lakes and valleys, and deserts

YOUR EYES'LL NEVER HOLD IT ALL AT ONCE - just the
small pleasures

My everlasting backspin, around the solar system-atic
AUTOMATIC CONTROLLER, fold in place by space and
time

Tear down the walls of nothing

WE ARE ALL FULL OF INDIVIDUALS AND

INDEPENDENCIES

CAUSE I AM, ORGANIC ELECTRICITY

As I sit in place, as the center of my galaxy

I AM, ORGANIC ELECTRICITY

My eyelids extends - the circumfrence

My mind tends to bend - irreverant!

Unparalleled - chaotic!

My fairy tale - psychotic

Lifespan - infinity

I am, ORGANIC ELECTRICITY

Contact shockwave - I'M HIT!

Equality and harmony - transmit

Program exchange - compute

Reformat hard drive - comply

Quantum leap time travel - exist

Exit to the exodus - connect

Brainchild nucleus - reality

I am, ORGANIC ELECTRICITY

All that has ever been - I shall be

And all that will come to be - I will become

God word radiate - authenticity

I am, ORGANIC ELECTRICITY
