Darlene, sit down I need to talk to you
Then you do what you want to do
Just hear me through
Darlene, you don't need no other guy
When you gonna realize
How much I love you

(Chorus)

Darlene, you're an errant pack of all you dreams
I'll have all I'll ever need, if you'll go with me
Darlene, honey I can give you everthing
I want you for my darlin', Darlene

Darlene, we're both tired of just hangin' 'round
Tired of dreamin' in this sleepy town, the rest is history

(Chorus)
