They say that I'm the kind of person who always speaks
my mind.

To me there's nothing stronger than the truth.

You can ask me almost anything and I'll tell you like it
is.

But darlin' when they ask me about you.

Chorus:

I tell it like it use to be When you were still in love with
me

Before you got to use to me and wanted someone new

I tell it like it ought to be

When they ask about you and me I tell it like it use to
be.

I wish that I was stronger I could tell them that you've
gone.

But that's one thing that I may never do.

If they want to hear about our love and how it all went
wrong.

Then darlin' they will just have to talk to you.

(chorus)
