Doesn't matter whos to blame
The bottom lines the same
And I am here alone with a broken heart

And I can't keep the tears
That I held back for years
Fallin from my eyes once they start

They say in time
Somewhere down the line
I will find someone to take your place

And though I hope that's true
So I'll get over you
Right now I question everything they say

Who are they
How do they know
What it's like ot love you
Then wind up all alone
Who are they
How do they know
They make it sound so easy
Take my heart then go

Who are they
And how do they know

I guess those promises we made
Were just something nice to say
And forever doesn't last that long these days

So how can my heart trust
After what happen to us
How can they say I'm gonna be okay

Who are they
How do they know
What it's like to love you
Then wind up all alone
Who are they
How do they know

They make it sound so easy
Take my heart then go
Who are they
And how do they know

Who are they
And how do they know
