Nothing's promised in this life
So i am thankful
That we're here tonight

Take my hand and let's look up
At the stars
We can make them ours

I wanna be your light
Let my be your light
I'll light your way
Across the milky way

I wanna be your star
Let my be your star
I'll light your way
Across the milky way

I don't wanna see you cry
All that pain we hold inside
Life is waiting, don't forget
You are free, i'll help you see

I wanna be your light
Let my be your light
I'll light your way
Across the milky way

I wanna be your star
Let my be your star
I'll light your way
Across the milky way

There's no time in life to judge
Only time enough for love
So as another night slips by
Let us dance beneath the sky

I wanna be your light
Let my be your light
I'll light your way

Across the milky way

I wanna be your star
Let my be your star
I'll light your way
Across the milky way

I wanna be your light
Let my be your light
I'll light your way
Across the milky way
The milky way
