One day in june  
I slipped away  
Caught by desire  
Drawn to the flame

My virtues disappeared  
Light on my feet  
Whispers as sweet as honey  
Calling to me

One day in june  
One day in june  
I felt the hunger  
I ate the fruit  
One day in june

So don't cry for me  
I had my chance  
I took a risk  
I asked the wind to dance

Don't try to save me  
Im already gone  
Everythings over  
Im burning on

One day in june  
One day in june  
I felt the hunger  
I ate the fruit  
One day in june

And i don't like how it feels  
To tell all these little lies  
Try to be the one you can count on  
But oh, it's a thin disguise  
I kissed it all goodbye  
One day in june
