(Heather Myles)  
Heather Myles & Dwight Yoakam

Sun's going down it's still a hundred and three  
Driving cross the desert down Highway 15  
There's no turning back now got all that we need  
To a desert oasis we're traveling my baby and me.

We're going to the little chapel on the Las Vegas strip  
Where the preacher looks like Elvis we could even  
strike it rich  
Life is a gamble but our love's a sure bet  
Going to the little chapel on the Las Vegas strip.

--- Instrumental ---

Car's broken down the side of the road  
How we got this far God only knows  
Sold everything don't need luxury  
Been living on good loving my baby and me.

We're going to the little chapel on the Las Vegas strip  
Where the preacher looks like Elvis we could even  
strike it rich  
Life is a gamble but our love's a sure bet  
Going to the little chapel on the Las Vegas strip.

Life is a gamble but our love's a sure bet  
Going to the little chapel going to the little chapel  
On the Las Vegas strip  
Going to the little chapel on the Las Vegas strip...
