

Heather Nova "Heal"

Visit "[Heal](#)" on MotoLyrics.com

Fall for me, my southern cross, my star
Shine for me when love has gone too far
I've got you belly deep in me

Just a little breath on the water now, is all we need
Just a little strength in our hearts
Enough to heal, enough to heal

Dig me out, can't leave this love for dead
Hand to mouth, we're pickin' up the thread
I've got you belly deep in me

Just a little breath on the water now, is all we need
Just a little strength in our hearts
Enough to heal, enough to heal

And the sea glistens
And the waves pull us in
Somethin' risin' up and up

Heal it, heal, little breath on the water now
Just a little strength in our hearts
Enough to heal, enough to heal, enough to heal

Just a little breath on the water now, is all we need
Just a little strength in our hearts
Enough to heal, enough to heal, enough to heal
