Why do I follow this heart of mine  
Risk my life, follow it every time  
Ride the waves into the wild beyond  
To bring you hope, that's what I'm riding on  
  
It's what I see inside, see in your eyes

#### Chorus

I can pull you from the wreckage  
I can save your life  
I can bring you what you need  
I can make it alright  
But it's you who lifts me to higher ground  
It's you who lifts me to higher ground

Why do I follow the call again  
No one hears, but I can feel your pain  
Worlds away, everyone's looking through  
Glory fades, but it's what I am to you  
  
It's what I see inside, see in your eyes

#### Chorus

Yeah, it's you who lifts me to higher ground  
It's you

#### Chorus (2X)
