Sometimes, I can feel you
Breathing into me
And these hands I can feel them
Tugging at my sleeve

I move through the day
In the rhythms that I've known
I've got this crazy dream
Of stripping down to truth and bone

All of it, all of it
All of it stripped down
All of it, all of it
All of it, to truth and bone

All of it, all of it
All, to truth and bone

My mouth is full of secrets
And I'm too afraid to tell
My body's full of longing
For you to know me well

I move through the day
In the rhythms that I've known
I've got this crazy dream
Of stripping down to truth and bone

All of it, all of it
All of it stripped down
All of it, all of it
All of it, to truth and bone

All of it, all of it
All, stripped down
All of it, all of it
All, to truth and bone

And I think of sinking
In way over my shoulders
Let the water
The water take me in and I

Need you to cut
Through to where I'm hidden
I'm awkward
And I'm too polite and I want

Two stars for arms
Like Orion I could
Breathe in, breathe in
Breathe out

If I could only lose myself
I would lose myself in you

I move through the day
In the rhythms that I've known
I've got this crazy dream
Of stripping down to truth and bone

All of it, all of it
All of it stripped down
All of it, all of it
All of it, to truth and bone

All of it, all of it
All, stripped down
All of it, all of it
All, to truth and bone

All of it, all of it
All, stripped down
All of it, all of it
All, to truth and bone

All of it, all of it
[Incomprehensible]
All of it, all of it
All, to truth and bone
