He's a sink full of numbers ( ? )  
A watery life of a deep repent  
Bothered, I'm on my own collar ( ? )  
And he even knows your name

And on my way down  
Right out the door  
Amused by the past

I'm a hopeless ? ? ? ? ?  
I'm gonna have him framed  
Oh, anything to pin him down  
I need him, he won't take the blame

And on my way down  
Right out the door  
Amused by the past

I never swallowed that spike before  
A watery life of a deep repent  
Bothered, I'm on my own collar ( ? )  
And he even knows your neam

And on my way down  
Right out the door  
Amused by the past
