Sometimes I hold my breath for the longest time
Close my eyes and watch this free fall flight
Scared of coming down from these dizzy heights

I need a snapshot before the last light fades
'Cos you're looking at me in that way again
Want to capture this in case this moment ends

Don't let the feeling go, now it's really here
'Cos only heaven knows what's happening
I do believe we can make this world stand still
If we don't change a thing

Last night I had that same old dream again

Walking on a tightrope without a safety net
But I had my wings because you were there

Don't let the feeling go, now it's really here
'Cos only heaven knows what's happening
I do believe we can make this world stand still
If we don't change a thing

Don't let the feeling go, now it's really here
'Cos only heaven knows what's happening
I do believe we can make this world stand still
If we don't change a thing

We don't need to change a thing

Don't change a thing

Don't change a thing
