I always find out too late  
I always find out too late  
You wouldn't believe what I'm on  
In all this time I found nothing to live without it for

Chorus:  
Help me only  
Help me only  
Help me get on my feet  
I feel like turning me down  
I feel like turning me down  
Good to see ya anne maria ( ? )

I never was anything  
Can't be happy or unhappy  
You wouldn't believe what I'm on  
In all this time I found nothing to live without it for

Oh, what are you now?  
Oh, what are you now?

What's wrong with you little flame?  
What's wrong with you little flame?  
I been trying to cool off for so long  
In all this time I found nothing to stop real pain

Chorus
