I always find out too late
I always find out too late
You wouldn't believe what I'm on
In all this time I found nothing to live without it for

Chorus:
Help me only
Help me only
Help me get on my feet
I feel like turning me down
I feel like turning me down
Good to see ya anne maria (?)

I never was anything
Can't be happy or unhappy

You wouldn't believe what I'm on
In all this time I found nothing to live without it for

Oh, what are you now?
Oh, what are you now?

What's wrong with you little flame?
What's wrong with you little flame?
I been trying to cool off for so long
In all this time I found nothing to stop real pain

Chorus
