DRIVING ROUND , in the night, trying to pick up a station  
Just to hear, the DJ play our dedication  
Blowing kisses down the telephone line just simple  
things that  
blow my mind away, and put happiness inside my day.  
Girl this show nuff must be love, it's got to be  
Girl this show nuff must be love it's heavenly, with you

Taking walks in the rain so we'll foresee a rainbow  
Holding hands, by the light, of a mid-summer's moon  
glow  
Sipping sodas in a corner cafe, just passing happy  
hours away,  
with you, making all of my dreams come true!  
Girl this show nuff must be love its gotta be ,  
show nuff must be love cause its heavenly , with you ( repeat out)
