"Dive"

Please don't be afraid
Believe what you see
Whisper it a hundred times
A lesson soon to be forgotten
If you feel that life has passed you by

(dive) come with me we'll flow into tomorrow
(dive) we can close our eyes and disappear
(dive) just below the threshold of detection
Is something you can't touch, taste, see or...

Here it is - the great escape
Slip with me into the shadows
What would life be without me ?
Master of your fate between two worlds

Don't you see that time is slipping by ?

(dive) come with me we'll flow into tomorrow
(dive) we can close our eyes and disappear
(dive) just below the threshold of detection
Is something you can't touch, taste, see or hear

Come to me be my inspiration
We've got to rise above
You've got to dive for love
You've got to dive for love

Come to me and we can touch the sky

(dive) come with me we'll flow into tomorrow
(dive) we can close our eyes and disappear
(dive) just below the threshold of detection
Is something you can't touch, taste, see or hear

(dive) you know that love all pull you under
(dive) they say the time for miracles is past
(dive) hold my hand and dive into the future
The time for us to rise is here at last

Rise
Dive
