It's not my responsibility  
If you say you love me  
(ooooooh)  
(repeat paragraph)

I know for sometime  
One day I would see you  
(? ) what you say  
Did I get it right  
Is it you and me tonight ?  
And you looked at me  
And I knew we'd be together  
(be together)  
You feel it too  
What can we do  
(feel, what can you do)  
Come on, move up to me  
I wanna whisper in your ear now  
(do you want me)  
When I get you home  
We're gonna be alone  
Disconnect the phone  
When we wake up  
You know the room is full of sunshine  
We close our eyes and make a wish

It's not my responsibility  
If you say you love me  
(listen to what I say)  
(ooooooh)  
It's not my responsibility  
If you say you love me  
(it's true)  
(ooooooh)

Hey ! you call me back  
'cause I'm not there when you want me  
(do you want me)  
The job on the phone  
Every night and day  
I've got to get away  
And on that we kiss

But I never said I loved you  
(I love you)  
Let's take it slow  
You've got to, got to let it go

It's not my responsibility  
If you say you love me  
(oooooh)  
(repeat paragraph)

(want you back, I need you back)  
(oooooh)  
(repeat paragraph 5 times)

(want you back)  
(I know I do)  
(I need you back)  
(I feel you do)  
(want you back)  
(I see you do)  
(I need you back)  
(I know you do)  
(repeat paragraph)

What do you see  
When you're looking straight at me  
When I look at you  
I tell you what I see  
You don't belong to me  
Sometimes it's true  
You're gonna leave it when it's over  
(it's over)  
I close my eyes and make a wish

It's not my responsibility  
If you say you love me  
(oooooh)  
(repeat paragraph 5 times until fade)
