I don't believe everything I see  
God only knows I believe in science  
Mr. Einstein, help me please  
I'd like to know what's really real

Keeping up with the times when everyone looks the  
same  
A synthetic paradise takes the kick out of cocaine  
If I want I can have a new obsession every day  
An escalating addiction and I know I can afford to pay

The first to be and last to know  
Like a film or a book or a TV show  
These things we're seeing constantly  
Pass through and out of you  
It pours into the ground and makes rivers flow  
It spills into the oceans, makes the feeling grow  
Becomes a cloud and rains and rains  
But it always leaves you needing more

It's strange the way it feels to live this way  
Losing touch as all resistance slips away  
There's an eye that lets you see what you want to see  
Reach out inside and you could be what you want to be

It pours into the ground and makes rivers flow  
It spills into the oceans, makes the feeling grow  
Becomes a cloud and rains and rains

But it always leaves you needing more

It's unreal but it's strange the way it feels the way to  
live this way

Losing sight, losing touch as all resistance slips away

In your mind there's an eye that lets you see what you  
want to see

Then you could reach out inside and you could be what  
you want to be

Keeping up with the times when everybody looks the  
same

Synthetic paradise takes the kick out of cocaine

If I want I can have a new obsession every day

An escalating addiction and I know I can afford to pay
