She's got a mango in the garden - sweet as can be  
She's got a mango in the garden - full of mystery  
She's got a mango in the garden - from the original  
tree  
She's got a mango in the garden - shares it with me  
Humid gleaming precious well  
Love to drink that water  
Parallel worlds when the sun goes down  
The atmosphere grows hotter  
She's got a mango in the garden - sweet as can be  
She's got a mango in the garden - full of mystery  
She's got a mango in the garden - from the original  
tree  
She's got a mango in the garden - shares it with me  
I slip through the glistening gate  
Tide began to pound  
Tears of light poured over me  
And ricocheted all around  
She's got a mango in the garden - sweet as can be  
She's got a mango in the garden - full of mystery  
She's got a mango in the garden - from the original  
tree  
She's got a mango in the garden - shares it with me
