they walked and walk among us  
and carry on their vile convictions  
education is prevention  
this is our struggle, this is our strife

we took just a fight  
we were saved and accepted this endeavour  
to open eyes, enforce memento, to awake  
remembrance  
it did nit start with carnage  
demolition of all human rights

against all lies  
and versus their oblivion  
there will be justice, despite all unconcern

we will find them, for all this apathy  
against all lies we seek for justice  
we seek for justice not revenge

no one will stop us, nothing they can do  
blunt trueness will be told  
and we will make it heard

against all lies  
we'll make them face their felony  
against all lies  
they will meet responsibility
