i'm a judeo christian morality,
with a greco roman intellect,
it's the way we're short-wired,
it's a civilizing force that demands respect...

from the baltic to the straits of gibraltar,
a blue flag gold star sparks a brand new empire,
ours to build, we have no choice...

i'm in an european super state,
every citizen required to debate,
i'm in an european super state,
every citizen required to debate...

why are the proud descendants of plato,
paying off more debts accommodating nato,
we're the caretakers of democracy,
no longer tolerate this hypocrisy...

baltic to the straits of gibraltar
a blue flag gold star sparks a brand new empire,
ours to build, we have no choice...

i'm in an european super state,
every citizen required to debate,
i'm in an european super state,
every citizen required to debate,

(2x)
old Europe...

i'm a judeo christian morality,
with a greco roman intellect,
it's the way we're short-wired,
it's a civilizing force that demands respect...

from the baltic to the straits of gibraltar,
a blue flag gold star sparks a brand new empire,
ours to build, we have no choice,
i'm in an european super state,
every citizen required to debate,

i'm in an european super state,
every citizen required to debate...
