

Heaven Shall Burn "The Disease"

Visit "[The Disease](#)" on MotoLyrics.com

You all have seen
You all have seen the suffering
You all knew it, you all know it
But your eyes
But your eyes lie to your heart
Morality corrupted and profit conducted

Born in a factory
Cold steel machineries
And driven by this greed - you're breeding this disease
Infected by this deadness - you're breeding this
disease

Cold steel machineries

And driven by this greed

But I will not accept your carelessness
Mass production - mass destruction
Born in a factory
Cold steel machineries
And driven by this greed - you're breeding this disease
Infected by this deadness - you're breeding this
disease

Cold steel machineries

You will face relentless changes!
You're breeding this disease
You're breeding this disease
