high in the sky,
where eagles fly,
morgray the dark,
enters the throne...

open wide the gate friend,
the king will come,
blow the horn and praise,
the highest lord,
who'll bring the dawn,
he's the new god,
in the palace of steel,
persuade the fate of everyone,
the chaos can begin,
let it in...

so many centuries,
so many Gods,
we were the prisoners of our own fantasy,
but now we are marching against these Gods,
i'm the wizard, i will change it all...

(6x)
valhalla,
deliverance,
why have you ever forgotten me...

magic is in me,
i'm the lost magic man,
never found what i was looking for,
now i found it but it's lost...

the fortress burns,
broken my heart,
i leave this world,
all gods are gone...

so many centuries,
so many gods,
we were the prisoners of our own fantasy,
but then we had nothing to lead our life,

no, no, we can't live without gods...

(9x)

valhalla,

deliverance,

why have you ever forgotten me...

oh no...
