[VERS 1]

There're sometimes when I'm far away  
and fight so hard to save the human race  
I want you to be by my side  
if you're not here I can't fly

Take my hand and come with me  
I'll offer you everything you need  
I'll show you that love is not a lie  
and I'll always be with you until I die

[BRIDGE 1]

Now it's time for you and me  
to find the words and to break free  
how long could you wait  
you are my fate

[CHORUS]

But before you know what you feel  
you must know that you light up my life  
and make me real  
but before you know you let me dream  
and I drawn in your eyes so divine  
and I hope soon you'll be mine

[VERS 2]

Once again you're on my mind  
if you're not there i can't survive  
but I can change the world and make it bright  
on the quest for love I will fight until I die

[SOLO]

[BRIDGE 2]

No time for strangers  
who try to separate us  
cause you know  
my life depends on you  
and you can make my dream come true  
I'll guarding you anywhere  
I will be there

[CHORUS 2]

But before you know what you feel  
you must know that you light up my life  
and make me real  
but before you know you let me dream  
and I drawn in your eyes so divine  
and I hope soon you'll be mine...

[CHORUS 3]

But before you know what you feel  
you must know that you light up my life  
and make me real  
but before you know you let me dream  
and I drawn in your eyes so divine  
and I hope soon you'll be mine
