

## Heavens Gate "Flashes"

Visit "[Flashes](#)" on [MotoLyrics.com](https://MotoLyrics.com)

[Words: Rettke]

[Music: Rettke, Paeth, Bilski]

The night awakes, there's nitro in the air  
we're human dynamite, exploding everywhere  
for a twilight generation gettin' wild and loud  
like burning fire, believin' there's no doubt

[BRIDGE:]

We rock, we roll, we're taking control  
the time is right now, we want it all

[CHORUS:]

Gives all the size, can you feel it  
it's breaking the ice, breaking the ice  
comes out to heal burning fever  
it's breaking the seal  
THE FLASHES, THE FLASHES OF STEEL

From here to eternity the stronger will survive  
a human dynamo, kickin' and alive

turning up the power 'till the sky is breaking up  
believe in metal gods, they will never stop

[BRIDGE / CHORUS]

Bodies are revvin' like wheels in the night  
the mind gets delirious from power and light  
a face fearing up all your senses to feel  
if you don't believe in the flashes of steel

From here to eternity the stronger will survive  
a human dynamo, kickin' and alive

[BRIDGE / CHORUS]
