don't know what to say, I don't know what to hear.  
I don't want anything no more, I don't wanna feel from  
you, from you, yeah

direction. I'm outta here  
direction. I don't care  
I'm out! I'm out! I'm out! of here.

on the day I knew that I had to run. just pick up and go,  
don't ever look back, and don't turn around to you, to  
you, yeah

direction. I'm outta here  
direction. I don't care

I've gone the same way so many times for you at my  
expense.  
you wanna map it all out for me, well just get away  
from you, from you, yeah

direction. I'm outta here  
direction. I don't care  
I'm out! I'm out! I'm out! of here.

I can't hear your words. I can't see your face because  
I'm already gone now,  
a million miles away from you, from you
