driving on it's late, it's 3 o'clock
tell ya pal yr in for quite a shock
are you driving now, are you driving on, are you
holding on tonight
are you scared now, are you frightened are you afraid
to die

I was waiting for you tonight. I nearly woke up dead
I was waiting for you tonight. I crossed the northern
light
Is it the end tonight

driving on you've got somewhere to go
maybe it's just away from the place before
now we're going fast, we're going far we're driving on
ahead
how do things look now, are you ready for the end

I was waiting for you tonight. I nearly woke up dead
I was waiting for you tonight. I crossed the northern
light
Is it the end tonight

it's a bloody long shot. do you want it or not
it's a bloody long shot. but you'll take it
driving on it's late, it's 3 o'clock
tell ya pal yr in for quite a shock
Are you driving now, are you driving on, are you
holding on tonight
Are you scared now, are you frightened are you afraid
to die
