### "Me And Her"

I used to see her almost every day and when I didn't, I  
didn't feel so great.  
when we were together, I thought everything was  
better.  
now I just have to pretend I just never cared that much.

I HATE HER  
AND I LOVE HER

you ask me why I'm getting so upset.  
you don't understand a girl who's passionate for  
another girl  
one day I think I love her then I think I want to kill her.  
you tell me to calm down, what is your fucking  
problem?

I HATE HER  
AND I LOVE HER

you said it once to me that girls are friends and  
friendships end  
and memories all in my head of love so strong it'd  
knock you dead  
they're thrown away like a melted ring and you just  
can't say anything  
and even though I know that's not true I still don't know  
what to do

I HATE HER  
AND I LOVE HER  
I hate her  
And I love her  
I hate, I hate, I hate her  
And I love her
