When...

When is tomorrow?

As the day seems night and the mask still in my hand

Words...

Where was your guidance

In the night, the wounds I bleed for the sins you need

Meet me through the hollow

Remember yesterday

As I'm painted in black

The wounds I bleed for the sins you need

Obsolete

Today I forgive you... But tomorrow no

The pain I'm living now

As I faint in the snow

The pain is haunting me as the wishes come

The name of the Nazarene... obsolete

Meet me through the hollow

Today I forgive you... But tomorrow no

The pain I'm living now

As I faint in the snow

Obsolete
