I got nuttin but love for you, baby
I got nuttin but love for you, honey
I got nuttin but love for you, baby
I got nuttin but love for you, honey

I got nuttin but love for you, baby
I got nuttin but love for you, honey I got nuttin but love
for you, baby I got nuttin but love for you, honey

I got nuttin but love for you, baby
I got nuttin but love for you, honey

I know you want lots a jewels and stuff
Backyards with swimming pools, bar with stools and
stuff
Fancy foods, lobster, sushi
Gear, Versace, Gucci, crazy Lucci
I know your M.O., you do demo on a paycheck
You get hair from the barber, show him no respect
Middle name Price Tag, first name Got Ya
Start a scope, got on a roll, now they can't stop ya
Talkin bout hey, Boo, how you do
Some clown uptown said you ran through his crew
I give you props and credit cause it's due
But I aint that clown, and my crew aint that crew
Times too hard to be fakin like I'm datin on some steak
And winin and dinin, I aint chokin on no chicken
Leave it up to me I'll close the whole damn store on ya
I got nuttin but love for ya

I got nuttin but love for you, baby I
Got nuttin but love for you, honey I got nuttin but love
for you, baby
I got nuttin but love for you, honey

I got nuttin but love for you, baby I
Got nuttin but love for you, honey I got nuttin but love
for you, baby
I got nuttin but love for you, honey

I'm not your H-E-L-P

But I'm your H-E-A-V-Y DASH-D
Don't test me, don't ask me for nothin
For nathins, for just, for doodle lee squat, you can do
me not
You plan on plot on who be hot and tryin to hit the slot
I know your low pro style, your low whole pro vibe
Kick a bother in the gut and then you smile
I must admit I really dig your operation
Every time we on the phone, you got the sexy
conversation
So now you hope to be the woman of my dream
And while I'm asleep, you'll be creepin, robbin me clean
I see you hangin on the corners with the rest of your
girl crew
Standin by the gutter with your booty cutters
Said whos the honey dip down with the money grip
Always got a plan and a scam to get some money quick
Always get with the next man, the one with the checks
And settin up a trap with the sexin

I got nuttin but love for you, baby I
Got nuttin but love for you, honey I got nuttin but love
for you, baby
I got nuttin but love for you, honey

I got nuttin but love for you, baby I
Got nuttin but love for you, honey I got nuttin but love
for you, baby
I got nuttin but love for you, honey

From the brother, from the brother, this the champion
From the brother, from the brother, this the champion
From the brother, from the brother, this the champion
From the brother, from the brother, this the champion

From the brother, from the brother, this the champion
From the brother, from the brother, this the champion
From the brother, from the brother, this the champion
From the brother, from the brother, this the champion

You give me feelings like I'm dealin with a crooked
hand
You got a grand from a man cause you shook his hand
You're well known in the streets, in the gutters
So fly, when you caught my eye, you made me stutter
You come around with your curls and your pretty pearls
You even been around the world, so you go, girl
Wheres the love at, tell me wheres the hugs at
Actin like a Rugrat, I know where you bought that
Don't try to gas me, girl, I know the streets well
You're money hungry and you're makin trick-n-treats

sell
So leave it up to me, I'll close the whole damn store on
ya
I got nuttin but love for ya

I got nuttin but love for you, baby I
Got nuttin but love for you, honey I got nuttin but love
for you, baby
I got nuttin but love for you, honey

I got nuttin but love for you, baby I
Got nuttin but love for you, honey I got nuttin but love
for you, baby
I got nuttin but love for you, honey
