Once more we clearly see

You'll choke on 3 words

But you won't choke on dick

Swallowing pride swallow your pride

Like drunken friday nights

Whose next?

And I'm thinking that this could not be so bad

Girl eats boy

Boy eats girl

We all get fed

I've always viewed this as masochistic

We all have our vices and mine is getting "fucked"

In every way

Once more, we see where you stand

Fuck you
