Help me understand the behavior we witness this moment.

Survey faces.

Give them a story a place that they're going.

Vacation capital here and I'm swimming' in death,

Unbelievable, unbefuckinlievable.

Just make your rounds, just make your rounds.

But those are not your fuckin' stories.

Destination from pint A to point B

And I can't even go without getting my hands wet,

Unbefuckinlievable
