Open the door

Spit in my face

Get on your knees and bleed on me

Everyone needs to wake the fuck up and witness the
sheer atrocity in the powder room

I didn't cum

The putrid fuck smell of blood and cigarettes wouldn't
allow it

Can you even feel me in you

Let's be obscure

Give it to me

I'll fucking give it to you

Turn on the lights

It's a bloodbath

This is a disaster

And you've ruined my pants
