The world I see, changes me.
Somethings wrong, there finding a way.
The world I see, breaches me.
Somethings wrong, there finding a way to bring me
down.

Find me, please find me.
Find me, please find me.

The world I see, murders me.
Somethings wrong, there finding a way to bring me
down.
There taking away from me, taking away from me.

Find me, please find me.
Find me, please find me.

Take me home, take it all away.

In the world I see, I know that it makes me feel this way
to.
You know you do.
Its the world I see in you, and I know that it makes me
feel this way to.
You know you do
Its the world I see in you, and I know that it makes me
feel this way to.
You know you do
Its that world that I see in you, and I know that it makes
me feel this way to.
You know you do

Find me, please find me.
Find me, please find me.

Find me, please find me.
Find me, please find me.

Take me home, take it all away, take it all away.

So far away, so far away.

The world I see, breaches me, somethings wrong, take
it all away.
Take it all away.
