I've been bouncing around
Trying hot coals, jogging, shiatsu, cooking, golf great
books
Crochet, croquet, fitness clubs and the stylish looks
Tried shiatsu, psychic hotline, Rollerblades, stamp
collecting, comic books
Never did jack for me

In the swirling howling wind
I've been stumbling around with a frown
Like a bumbling clown
Like a punch-drunk fighter coming undone
Oh, shot with a stun gun - try and try again
I try this, I try that, I'll be changing everyday
Oh, where I'm at
Till I find my space
Till I find my place under the sun

Finding my place, my place, my place under the sun

I've been pushing my fingers into gloves,
Getting into doves
With guidance from up above
Don't tell anybody but I might just have a little bout with
love
Test driving a new accent, cars,
Posing as a confident gent (confident gent)
Tried indifference
Never did a thing for me

In the swirling howling wind
I've been stumbling around with a frown
Like a bumbling clown
Like a punch-drunk fighter coming undone
Oh, shot with a stun gun - blowing 'round again
I try this, I try that, I'll be changing everyday
Oh, where I'm at

Till I find my space
Till I find my place under the sun

Lookin', lookin', lookin', lookin' to find my place in the sun.

Lookin', lookin', lookin', lookin', lookin', lookin', lookin'
lookin', lookin' to find my place in the sun

Iambic pentameter (pentameter)

In the swirling howling wind
I've been stumbling around with a frown

Like a punch-drunk fighter coming undone
Oh, shot with a stun gun - blowing 'round again

Oh, where I'm at
Till I find my space
Till I find my place
Find my place under the sun

Lookin', lookin', lookin', lookin', lookin', lookin' to find
my place in the sun
Lookin', lookin', lookin', lookin', lookin', lookin' to find
my place in the sun

In the swirling howling winds
The swirling howling winds
To find my place in the sun

Lookin', lookin', lookin', lookin', lookin', lookin', lookin'
lookin', lookin' to find my place in the sun
Lookin', lookin', lookin', lookin', lookin', lookin'...
