One eye is open, the other eye is shut  
Don't throw anything to me  
I'm in no place, no place to receive  
And I just can't move a thing  
Things are rough down here  
You know it's a little grim  
Whatever you've got to pick me up  
To help me out, I'm in  
I'm down with that

In my dream I can fly, fly high  
Over the fields and across the sky  
Then I'm awake and I'm back on the ground  
If you could take me back up there  
I'm down, down with that

When I escape and close my eyes  
Can't tell you from me  
Sometimes in the dreams I look at myself  
And it's looks so good, what I see  
I'm having a little trouble here  
Could you maybe help me out?  
A little confidence pill you got  
To take away my self-doubt  
I'm down with that

In my dream I can fly, fly high  
Over the fields and across the sky  
Then I'm awake and I'm back on the ground  
If you could take me back up there  
I'm down, down with that

Slow down sun, shake yourself  
Why make your own hell?  
Say what are you doing son?  
I'm just trying to likemyself  
I'd love to help myself  
You know I really, really would  
May your days be bright and well

In my dream I can fly, fly high

Over the fields and across the sky  
Then I'm awake and I'm back on the ground  
If you could take me back up there  
I'm down, down with that
