Interlaced within your rapture  
Wrapped in twilight from hereafter  
So that you might know the flavour of that desire  
Destiny through dreams of sorrow  
All life ends weak and hollow  
And cannot know your tears of light shall remain

"The skys alone told tales of fire  
Conspiracy of pain and desire  
Raping heavens to the thunders roar"

Oh, dost thou  
Dost thou taste the languid sweetness of my love  
For revenge of fire on heaven  
Of what has been left within  
And the chaptered pain of horror  
Deeply sighs and spreads her wings  
You shall hear me with your ears  
That are deaf to spoken tongues  
Enchanting all forsaken  
Voices poisoning their lungs  
And to be spoken forever  
In webs of enshadowed destiny  
They do not penetrate the conscious mind

Reflecting sanity

Drawing all life and light into them  
Leaveth thou in their turmoil draining again  
The sound of emotion, thy thunderous heart  
And tethered forever in your thoughts from afar

Beneath the veil of tears they wear  
They see not clear enough to care  
Darkness seething avalon, fore skys reap death and  
heavens tear  
And speak in tongue of secrets told  
Of spirits kindred, bought and sold  
A kingdom beneath a veil of dark shalt remain  
Your velvet skin in breath of sorrow

A token of thy graveless honour

Fore thou art the touch of death like winters sigh  
And to remain in this forever  
Draped in darkness here together  
So many dreams but never sleeping  
Anguished pain, eternal weeping
