"Cold But Undead"

two necrophiliacs in the graveyard
they excavated soil on the fresh tomb
coffin opened lustily
naked corpse of blonde dead female removed
necrorape
her dead body not rotten, graceful like goddess
rapests touched pale and cold skin
animalistic sex desire blinded rapest's mind
cock stuck in cold slit
dark soul breathed when rapest in the depths of lust
damned soul metamorphosed into flesh to red hunt
dark heart started to beat, eternal life, immortal gift
dark eyes opened to suck mortal life, red destiny
bloodfeast, malevolent demon feeding human blood
bloodlust, intradermal was burning with hell flame
gravedigger's nuts bitten by bloodsucker
gravedigger's blood sucked by goesucker
bloody eyes saw cold but undead one
butchered human flesh
bloodfeast of undead
