All flesh for me  
Hunger spawns coming with me  
All women are so tasty  
Rushing them show no mercy  
Their flesh for me  
Her eyes wide open with full of fear  
She doesn't want to be eaten and die  
I will torture to her and babies  
Flesh ritual started there is no escape  
I cut legs of children and removed their teeth

I ate fresh legs and splitted her womb  
I cut hear head and her entrails  
Her soul to god her flesh to me  
I'm in her ass, drinking blood  
Like hot wine, inside of me  
Flesh feast in slaughter house  
God takes soul I take flesh
