Closed her eyes to tranquil sleep
Her wish was to see God's angels
But her last sleep will be nightmare
This unbelievable but reality
Opened her eyes in gore gallery
Machine waiting with bloody knife
Fucked and cut corpses on the ground
Waiting resurrection to living again
Machine stuck cock to her womb with knife carved her
tight asshole
With hook torn off busts and crotch
Her end coming from genital pus

Screams in vaginal torment
Tears in genital terror
Her eyes full with blood
Machine cum in her womb
In gore gallery her corpse smashed
In death gallery her corpse crushed
Opened her eyes but can't see her room
Still in the gallery in gore dream
She saw her own corpse
Realized that killed
Now gore dream is gore truth
She is fucked ghost
