in the night  
deep inside hypnotised from the dark  
gore desire burnt inside  
master was calling in unholy night  
virgin neck  
cursed her flesh into flame  
not god's maid but demon's whore  
call of wolf to red side  
father of gore kingdom came  
with the full of hate into the lust abyss  
she dragged to faithless heart through the graveyard  
lord bait her on the tomb  
teeth fucked fog's whore  
bride of darkness lord  
darkness coming  
in this coffin there was unholy dead  
bride transformed the undead  
freedom of blood before sunset  
bloodlust caused bloodthirsty  
bride of gore raised from the tomb into immortality  
little victim hunted and chopped in half  
his neck sucked, his blood drunk  
lunatic disembowelment  
small body decomposed  
undead bride raised in the fog

second life on this earth  
as undead who awoken for taste of gore  
innocent life flown into her  
caused demonic and orgasmic pleasure  
pleasure will kill god's morality  
pleasure and bloodlust will dominate  
with postmortal fatality
