### "9 Shades Of Red"

Visit "[9 Shades Of Red](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Where did I go so wrong  
Singin the same old song  
Sittin home all alone sayin woe is me  
La la la la la la la

So now I'm callin all of my friends  
And this is where the fun begins  
What would it take to afford a little break from this  
boredome little  
Ha ha ha ha

Holler back for a planned attack on this unsuspecting  
town  
We may be lookin pretty but we make an awful sound

It's you and it's me and that's all we'll ever need  
And yah we'll tear up the streets and we'll dance until  
we bleed  
And then we'll sleep when we're dead cause we'll take  
over this town  
And paint it 9 shades of red gettin down is what we're  
up to tonight

And now security is havin a fit  
Cause nobody is givin us shit  
And as the perty get cloudy yeah we start to get rowdy  
Screamin rah rah rah rah rah  
And if we gotta deal with the cops  
Try to shut us up and say the fun stops  
God we gotta keep grooving while your mouth keeps  
moving mr  
Blah blah blah blah  
Holler back for a planned attack on this unsuspecting  
town  
We may be lookin pretty but we make an awful sound

It's you and it's me and that's all we'll ever need  
And yah we'll tear up the streets and we'll dance until  
we bleed  
And then we'll sleep when we're dead cause we'll take  
over this town

And paint it 9 shades of red gettin down is what we're  
up to tonight

So now we gotta get up and shout  
Until everybody kicks us out  
Or till the lights come on and the fights go on  
It's everything that we're all about  
So now we gotta get up and shout  
Until everybody kicks us out  
Or till the lights come on and the fights go on  
It's what we're all about

It's you and it's me and that's all we'll ever need  
And yah we'll tear up the streets and we'll dance until  
we bleed  
And then we'll sleep when we're dead cause we'll take  
over this town  
And paint it 9 shades of red gettin down is what we're  
up to tonight

It's you and it's me and that's all we'll ever need  
And yah we'll tear up the streets and we'll dance until  
we bleed  
And then we'll sleep when we're dead cause we'll take  
over this town  
And paint it 9 shades of red gettin down is what we're  
up to tonight
