I've heard this all before  
Don't waste my time, don't break my balls, get out my door.  
You wont see me caving in  
It's time I stand and show you what's making me spin

So if you, peel away the skin  
You'll find the strong survivor but they can't always win  
I'll stand up, to the shallow end  
You won't see me drown when I sink or swim

Don't spell this out in tears  
Don't play those games or say these names and live your fears  
I told you no means no  
You had your chance, you broke my heart, it's time to go

So if you, peel away the skin  
You'll find the strong survivor but they can't always win  
I'll stand up, to the shallow end  
You won't see me drown when I sink or swim  
You won't see me drown when I sink or swim

So if you, peel away the skin  
You'll find the strong survivor but they can't always win  
I'll stand up, to the shallow end  
You won't see me drown when I sink or swim  
Our loves come to a bitter end  
I hope you drown when you sink or swim  
I hope you drown when you sink or swim  
Sink or swim  
You sink or swim
