They put us to work  
The anvilbrigade  
The angels lost track when  
We started to fade  
Believing is seeing you're seeming okay  
It seems we lose our love  
At the end of the rain  
More than a fighting chance i've got  
Seems like i'm losing out a lot  
Maybe the sun still knows my name  
I'll walk on my own to feet again  
I'm just a clean cut individual  
This ain't no second class residual  
And from the bottom  
I can feel you screaming  
You turn your face to the rain  
I see you smiling again  
Maybe there'll be no more pain  
The day we all go insane  
They made us create they made us  
Run farther they made us believe there  
Was no one to bother  
It feels like i'm old  
It seems like i'm colder  
She came in a box i loved  
And i sold her  
More than a fighting chance i've got  
Seems like i'm losing out a lot  
Maybe the sun still knows my name  
I'll walk on my own to feet again  
My body and brain this life i lead  
Belongs to you i turn my  
Face to the rain and see you smiling again  
Maybe there'll be no more pain the  
Day we all go insane
