started on the real world  
a hot tub full of hot girls  
grinding every frat boy and freak

so line up all the idols  
who paint on phony smiles  
tryin' to ride the fast track for free

who's the biggest loser  
i'll bust the biggest boozer  
bigger ratings for MTV

and all the sole survivors  
still stranded on the island  
lying through their teeth for money

chorus:  
so everybody dance  
and everybody sing  
if you wanna to go far  
if you wanna to be a star  
we can swing it  
cha-ching

will you take off all your clothes  
will you strike a playboy pose  
if you wanna go far  
if you wanna be a star  
then you gotta bring it  
cha-ching

everybody stop and stare  
kardashin's ass is everywhere  
if you missed it watch TMZ

pretending to be lesbian  
the ta tita's playing all of them  
while flavor flavé gets fucked up for free

guess who's been in living large

it's mini me the porn star

google him and I thing you'll agree

and all the hotties on the hill  
just getting rich and making mills  
while you and I are watching tv

chorus:  
so everybody dance  
and everybody sing  
if you wanna to go far  
if you wanna to be a star  
we can swing it  
cha-ching

the all american dream  
is getting fifteen for free  
the all american dream is so skin deep

started on the real world  
a hot tub full of hot girls  
grindin every frat boy and freak

chorus:  
so everybody dance  
and everybody sing  
if you wanna to go far  
if you wanna to be a star  
we can swing it  
cha-ching

so hurry  
turn it on  
turn it on  
get your 15 minutes

it's almost gone  
turn it on  
turn it on

so hurry  
turn it on  
turn it on  
get your 15 minutes

it's almost gone  
turn it on  
turn it on
