she said baby don't leave
be home stay close be close to me
boy don't be gone
he said baby you know
i gotta run i gotta go
i won't be long, girl i won't be long

she said boy don't you flirt
and baby please just don't get hurt
and if you feel alone then here take my shirt
he said forever girl i know you hate the weather girl
so maybe you should hold onto my sweater girl

she ran picked up the phone
said babe i miss you come back home
it can't be long, boy it can't be long
he said i hate this place
i miss your smile i miss your face
i wrote a song, girl i wrote a song

she said you make me better boy
i just mailed you a letter boy
and oh just so you know i'm still in your sweater boy
he said girl don't be hurt
i've sweat a lot and smell of dirt
and i think i'd feel naked without your shirt

he said you're looking great
i'm home i'm back i couldn't wait
girl way too long, this was way too long
she said get over here
i crave you close i need you near
now play that song, boy play me our song

he said back to forever girl
hope you endured the weather girl
now all i wanna do is get you outta that sweater girl
she said i like the way you flirt
i'm so glad you didn't get hurt
now let me see you naked without that shirt
