Wake me up inside
I need it
Tell me not to cry
You feel it
Open up my eyes
I need it
If I fall you can tell me where not to go
I will try not to cry

Come play, with me but don't speak

You tell me what you need
Tell me what you're feeling and I'll tell you who I know
But if you show me what is real and you tell me how to
feel it
Well I'll tell you where to go

Wake me up inside
I need it
Tell me not to cry
You feel it
Open up my eyes
I need it
If I fall you can tell me where not to go
I will try not to cry

Come play, with me but don't speak

Where's my head at
Cuz I'm on top of it

Come play, with me
