Body language

Oh, yeah

(Yeah, yeah)

Oh, yeah

(Yeah, yeah)

I see what I need to do

Yeah

(Yeah, yeah)

Oh, yeah

(Yeah, yeah)

I see you watching

Tell me is

Something you like, like

'Cause I feel you eyes

As they undress me

No, don't you stop it

Love it with ya bad attitude, tude

'Cause I'm in the mood

Baby, impress me

Let me follow your lead

Baby, come on control me

Come over take on me

Take me

If you're in it for real

Go ahead, put it on me

I know that you want me

So take me

Read my body language

I do what you like, like

So prove that you're right, right

(Control me)

Read my body language

I do what you like, like

Come into my spotlight

I got what ya need
(Need, need, need, need, need)
I got what ya need
(Need, need, need, need, need)

Boy, whatcha waiting for?
Come and take control over me, me
Show authority

'Cause I am looking for a boss type
Someone to fulfill all my needs, needs
So, give me a pieces of your guidance

Let me follow your lead
Baby, come on control me
Come over take on me
Take me

If you're in it for real
Go ahead, put it on me
I know that you want me
So take me

Read my body language
I do what you like, like
So prove that you're right, right
(Control me)

Read my body language
I do what you like, like
Come into my spotlight

I got what ya need
(Need, need, need, need, need)
I got what ya need
(Need, need, need, need, need)

Check out
Chillin' in the back of the club tonight
Make kin between us only right?
But, keep dancin' show me your step
And go 'head speed it up like it

Get in the left lane
Up in the jet plane
Fuel about a mill, mill
From Paris to Beverly Hills

We that ill
(That's right)
Lay my eyes on a sassy pearl

Heidi Montag
Yeah, that's my girl

Read my body language
I do what you like, like
So prove that you're right, right
(Control me)

Read my body language
I do what you like, like
Come into my spotlight
I got what you need

Read my body language
I do what you like, like
So prove that your right, right
(Control me)

Read my body language
I do what you like, like
Come into my spotlight

I got what ya need
(Need, need, need, need, need)
I got what ya need
(Need, need, need, need, need)
I got what ya need
