I got a street light green
I got an old mustang
I got a small town get out anywhere but here dreams
And an open road
What am I waiting for
Well I'm five years in to a two year plan
Still standing here with the walls closing in
Behind this open door
What am I waiting for
Oh oh what am I waiting for
I stayed here for love watched it disappear
Now there's nothin but yesterdays holding me here
I can't take no more
What am I waiting for
Oh oh what am I waiting for
Well these blue skies and sunshine and good times

Are mine for the taking
I'm always saying I'm crazy for staying
So what am I waiting for
Ooh
I can hear God now
From a silver cloud
I got plans for you child
What you worried about
You know life's too short
What are you waiting for
Oh oh what are you waiting for
Yeah these blue skies and sunshine and good times
Are mine for the taking
I'm always saying I'm crazy for staying
So what am I waiting for
Oh oh what are you waiting for
What am I waiting for
